DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 13-15, and 17-18, drawn to a nucleic acid encoding an α -1,4 glucanotransferase, a method for modifying starch in a plant by transformation with a polynucleotide encoding an α -1,4 glucanotransferase.

Group II, claim(s) 7-8 and 10, drawn to a method for extracting modified starch from a plant, and modified starch thereby obtained.

Group III, claim(s) 9, drawn to a method for making food products with modified starch.

Group IV, claim(s) 11, drawn to a method for ~~obtaining~~ ^{Extracting} modified glycogen. ~~from a~~ ^{from} plant.

Group V, claim(s) 12 and 16, drawn to a protein having α -1,4 glucanotransferase activity.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no special technical feature that links the nucleic acid encoding an α -1,4 glucanotransferase of Group I with the modified starch of Group II or the protein having α -1,4 glucanotransferase activity of Group V. Further, the method for modifying starch in a plant by

Art Unit: 1638

transformation with a polynucleotide encoding an α -1,4 glucanotransferase of Group I is distinct from the method for extracting modified starch of Group II, the method for making food products with modified starch of Group III and the method of extracting modified glycogen from a plant of Group IV. Hence, Groups I, II, III, IV, and V do not relate to a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russell Kallis whose telephone number is (703) 305-5417. The examiner can normally be reached on Monday-Friday from 8:30-5:00 PM.

If attempts to reach Examiner by telephone are unsuccessful, the Examiner's supervisor, Amy Nelson, can be reached at (703) 306-3218. The fax phone number for this Group is (703) 308-4242 or (703) 305-3014.

Any inquiry of a general nature or relating to the status of this application, or if the examiner cannot be reached as indicated above, should be directed to the legal analyst, Kim Davis, whose telephone number is (703) 308-0009.
